

SCOUTS EFFICIENT IN LIBERTY LOAN SALES

The Boy Scouts are the most efficient organization in Columbia," says J. R. Somerville, who represents this group on the Liberty Loan Committee. "The proof of this lies in the fact that these boys sold \$94,350 worth of Third Liberty Loan bonds out of the \$202,000 quota for Columbia, and \$7,730.75 worth of War Saving Stamps up to June 1 of this year.

The scouts have a desk at the Liberty Loan headquarters, where Spencer Shore is in charge.

The National Scout Council awards medals for exceptional work done in these campaigns. The service medal is given to any scout who sells bonds to ten or more families. After the first medal is won an additional bar is added for every campaign in which the same number of bonds is sold. Spencer Shore is the only one who has the medal and the two bars although a number have won the medals.

Sanford Conley sold the most bonds in the third campaign. He collected \$22,700 from his sales. Spencer Shore sold to the largest number of people, thirty-six.

An "ace medal" is awarded by the National Council for selling War Saving Stamps to twenty-five people and to the amount of \$250.

Plan for Coming Loan.

The scouts will meet to make final arrangements for the coming Fourth Liberty Loan campaign at 7:30 o'clock tonight in the Y. M. C. A. Auditorium.

WAR FUND CAMPAIGN

Dean Walter Miller Appointed Chairman for the District.

The state drive of the United War Work Campaign will start November 11 and last for nine days, according to the plans formed at the state meeting held in St. Louis yesterday. The quota for Missouri in the drive is \$5,000,000.

The state was divided into twenty-one districts. The Eighth District consists of Boone, Audrain, Callaway, Miller, Moniteau, Cole, Maries and Osage counties. Dean Walter Miller of Columbia was selected as district chairman. Dr. J. P. Porth of Jefferson City is vice-chairman, and Harry Atkinson is district manager.

The same state plans were adopted this year as were used in the Y. M. C. A. drive last year. The fund this year will consist of contributions to the Y. M. C. A., Y. W. C. A., Library Association, Soldiers Relief Association, Salvation Army, Knights of Columbus and Jewish Relief Association. All of the money is to be used in war work.

E. W. Hinton of Hannibal is state chairman and R. A. Cassidy of St. Louis, state manager, for the drive. The principal speaker at the St. Louis meeting yesterday was Dr. John R. Mott. Talks were made by representatives of the seven organizations.

The county and district organizations will be perfected within the next few days.

Those attending the meeting at St. Louis from Columbia were Dean Walter Miller, J. M. Wood, H. O. Severance, H. M. McPheeters, Mrs. Emma K. Parsons and Miss Forbes.

George B. McCowan Made Lieutenant.

George B. McCowan, a former student in the School of Journalism of the University, who received a commission as second lieutenant at Camp Hancock, Augusta, Ga., has been given an assignment at Camp Hancock. He is the son of Mr. and Mrs. Harvey McCowan, 207 McBaine avenue.

Meat at the different meat markets usually sells for about the same price, but it varies in quality according to the grade of meat used and methods of handling. Wholesome meats are the product of quality stock, cleanly handled and perfectly refrigerated. The modern sanitary market of Richards is supplying many housewives with this quality of meat, yet their prices are no higher than elsewhere. R-22

COOKS TRAINED FOR OVERSEAS

Camp Bowie Graduates Classes of 300 Experts in Conservation.

FORT WORTH, Tex., Sept. 27.—Nine hundred skilled cooks, trained for overseas duty, have been graduated in classes of 300 from the government school for cooks and bakers, the largest school of its kind in the country, which is being conducted at Camp Bowie here under command of Captain Fred H. Morrell.

Students graduating must reach the following standard: Practical work, 50 per cent; recitation and theory, 20 per cent; care of kitchen, 15 per cent; discipline, 15 per cent. The majority of those graduated have been taken from the course for second cooks, with first cooks next in number and mess sergeants third.

The course includes lectures and instruction on rations, bills of fare, component parts, field specifications, preparation, sanitation, temperatures, mess management, stock sheets, field cooking, recipes and visits to the packing houses here. An understanding of food values most needed to suit conditions existing in various places is being drilled into the students.

Great attention also is given to food conservation. The army must not waste and cooks are taught to throw all particles of meat and bone into a twenty-gallon pot, where the mixture

is boiled and the fat rendered. The stock is then used for gravies and soups.

Some companies here require the men to weigh what is left on their plates and the amount is deducted from the next meal, thus adjusting the food needed to their appetites.

The sanitation course requires the mess officers to keep kitchen, mess hall, refrigerators, ovens and cooking utensils hygienically clean. This applies to tables and floors. How to set the tables is an important part of the study.

Experiments are conducted to devise means of using substitutes for flour, such as oatmeal, cornmeal and rice flour. Use of sirup instead of sugar wherever possible is encouraged.

"Food wastage," said Captain Morrell, "is not always the fault of the soldier at the mess table. The cook is often to blame. If he does not cook the food right, it will be distasteful to the men and they will refuse to eat all set before them. The well cooked meal puts the men in good spirits as well as helping them physically."

A record of food conservation was kept at the detention camp where the recruits are quartered and fed under the direction of Captain Morrell. Of 72,179 pounds of flour allowed the camp in fourteen days only 36,165 pounds were used and yet every man had all the bread he desired.

NOTICE TO THE PUBLIC

Beginning October 1st, our business will be conducted on a cash basis.

To keep the itemized milk and cream accounts of a thousand or more patrons and send out a statement or have collectors call on them frequently is a heavy expense and an annoyance to the customer.

Under present trying conditions it is imperative that we do this for the conservation of labor and the elimination of unnecessary expense.

This ruling will apply to all except merchants and dealers who buy at wholesale.

We ask the co-operation of the patron in this matter and it is our desire to render the most efficient service possible.

Please provide for your wants by purchasing cards of tickets from the driver or at our office. These tickets will be accepted in payment of all products including ice cream and butter.

We wish to extend our voice of appreciation to our customers and especially to those who have been inconvenienced by delays or poor service at times when we were unable to secure help or supplies.
